

SITE VISIT

TKO Biodiesel Plant

The TKO-Biodiesel Plant is invested by ASB Biodiesel (HK) Ltd. to produce biodiesel fuel using cooking oil and grease trapped waste collected from local community. The plant is situated on a lot of 18,000 m² and will have a capacity of producing 100,000 tons annually. ICES may appreciate the challenges that the project team faces for the construction of the first biodiesel plant in such scale in Hong Kong.

Date: 18 August 2012
Meeting Time & Point: 9:30 am MTR Hang Hau Station (near Exit A)
Time: 10:00am to 12:00pm
