

# BK SURCO Training

presents a NEW series of

## BIM STRATEGY AND MANAGEMENT WORKSHOPS for CONSTRUCTION PROFESSIONALS

June 2018

## New Series of BIM Strategy and Management Workshops for Construction Professionals

Following the success of its conference and workshops on BIM in Hong Kong in November 2017, BK SURCO has developed a new series of BIM Strategy and Management Workshops. These workshops build on the recent workshops for professionals and now give participants the opportunity of furthering their knowledge to:

- Gain an understanding of BIM management in practice based on industry applications and case studies.
- Gain a more detailed understand of how to maximise the value of BIM adoption within their individual organisation.
- Create a roadmap for the adoption of BIM within their organisations and series of recommendations for their organisations to take forward.

### Contents:

Workshop 1 – BIM Strategy and Management for Owners and Estate Managers

Workshop 2 – BIM Strategy and Management for Developers

Workshop 3 – BIM Strategy and Management for Contractors

**BK SURCO Training** is an incorporated joint venture between BKAsiaPacific (Hong Kong) Limited ("BK"), the Hong Kong based Consultancy, providing Commercial and Contract Management; Dispute Resolution; Project Management; Planning, Programming & Scheduling and Quantity Surveying Services to the Hong Kong and International Construction Industries, and SURCO Ltd, the information business of the Chartered Institution of Civil Engineering Surveyors ("CICES"). **BK SURCO Training** was founded as the International Training Company of CICES to provide commercial training resources, advice and help for employers of construction personnel, especially those working in civil engineering, and for individuals engaged in commercial activities within the construction industry. **BK SURCO Training** combines the experience of SURCO Training's experience of providing training advice and structured training programmes for many leading construction companies and employers of engineering services and public seminars in the United Kingdom over many years and the experience of BK in providing commercial and contract management training in Hong Kong and internationally in China, France, India, Japan, Malaysia, Philippines, Singapore, Thailand and Vietnam.

BK SURCO have joined with **BIM ACADEMY** an international centre of excellence for BIM founded in 2010 by Northumbria University and Ryder Architecture, to deliver high quality training on BIM management to construction professionals based on their industry experience and academic expertise.

## Training from Expert - Tutor

**bimacademy**

**Graham Kelly** graduated from Loughborough University with a degree in construction engineering management and gained experience in industry working for Morgan Sindall and AMEC on several construction projects in the UK. Graham completed his PhD in 2015. Graham has specialist knowledge in BIM enabled facilities management, BIM Level 2 processes and procedures, architectural practice, feedback, knowledge transfer techniques and adaptability. As an Associate within BIM Academy, Graham is responsible for leading strategy and implementation of BIM applications specific to clients' real needs. He has 12 years' experience in construction and academia, completing his PhD in appropriate feedback to architectural practices to improve early design decisions. His project experience includes developing strategies and overseeing implementation of BIM processes and technologies for clients such as **Sydney Opera House, M+ Museum, Hong Kong, BAE Systems, Durham University, Greenwich Peninsula Riverside, Durham Cathedral and The UK Royal Household.**

## BIM Strategy and Management for Owners and Estate Managers

**Duration / Date / Time**

**One day**

**5 June 2018 (Tue)**

**0930-1730**

**Aims**

To give participants the opportunity to gain a more detailed understanding of how to maximise the value of BIM adoption within their individual organisation. At the end of workshop each delegate will gain an understanding of BIM, a template roadmap for the adoption of BIM within their organisations and series of recommendations for their organisations to take forward.

**Coverage**

- Workshop:
  - Business objectives at corporate and divisional level and how BIM will add value
  - Current and future client base and type of work undertaken
  - Company structure, relationships, supply chain and reporting routes
  - Current CAD and BIM implementation methods, including software and training to date
  - Potential BIM uses to deliver business value
  - Criteria by which success will be measured
  - Financial aspects – budgets, timescales
  - Perceived risks and opportunities
  - Review of current IT infrastructure
  - Current software skills and skills gaps

**Who should attend**

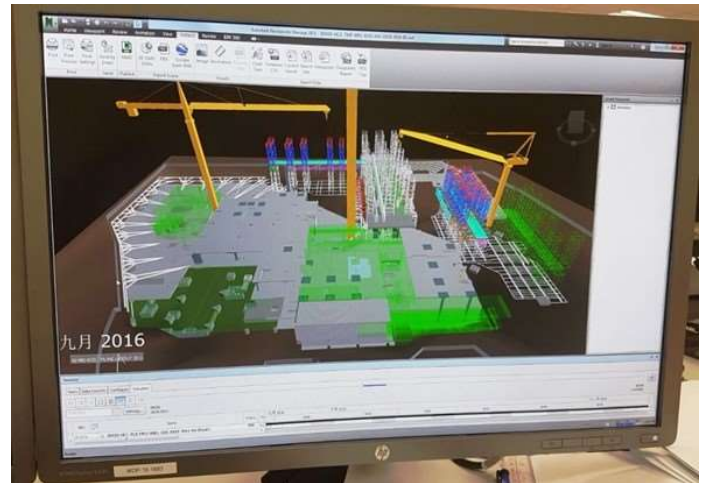

Owners and Estate Managers involved in the strategic and operational management of buildings, facilities and large estates.

**Materials**

Pre-workshop briefing paper and full copies of presentations will be provided to all participants

**Remarks**

Pre-workshop Briefing Papers will be despatched to successful applicants a few days before the workshop. In order to be properly prepared for participating in the discussions and exercises it will be necessary for all participants to study the Briefing Papers in advance of the Workshop.

## BIM Strategy and Management for Developers

**Duration / Date / Time**

**One day**

**6 June 2018 (Wed)**

**0930-1730**

**Aims**

To give participants the opportunity to gain a more detailed understanding of how to maximise the value of BIM adoption within their individual organisation. At the end of workshop each delegate will gain an understanding of BIM, a template roadmap for the adoption of BIM within their organisations and series of recommendations for their organisations to take forward.

**Coverage**

- Workshop:
  - Business objectives at corporate and divisional level and how BIM will add value
  - Current and future client base and type of work undertaken
  - Company structure, relationships, supply chain and reporting routes
  - Current CAD and BIM implementation methods, including software and training to date
  - Potential BIM uses to deliver business value
  - Criteria by which success will be measured
  - Financial aspects – budgets, timescales
  - Perceived risks and opportunities
  - Review of current IT infrastructure
  - Current software skills and skills gaps

**Who should attend**

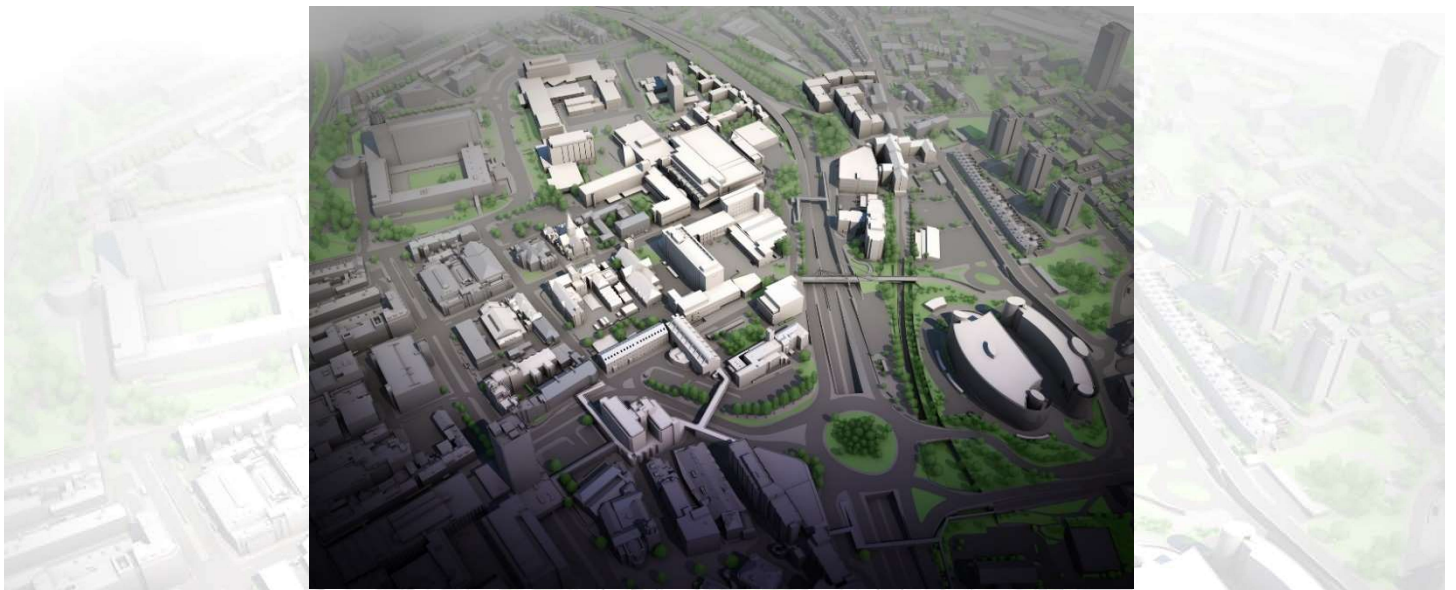

Senior managers within developer organisations responsible for managing development portfolios and procuring professional services from consultants and contractors in the supply chain.

**Materials**

Pre-workshop briefing paper and full copies of presentations will be provided to all participants.

**Remarks**

Pre-workshop Briefing Papers will be despatched to successful applicants a few days before the workshop. In order to be properly prepared for participating in the discussions and exercises it will be necessary for all participants to study the Briefing Papers in advance of the Workshop.
