Lighthouse Club International Conference

Constructing, Contracting, Consulting, Collaborating and Caring along the Belt and Road

HKCEC – 30th and 31st May 2018

Introduction

Lighthouse Club International is delighted to present a Two Day Construction Conference on the theme of “Constructing, Contracting, Consulting, Collaborating and Caring along the Belt and Road”. As well as providing opportunities for international investors in infrastructure, China’s initiative of “One Belt One Road” has provided China’s construction companies increased business opportunities in the developing countries along the “Belt and Road”. However, with those opportunities comes risk as China’s construction industry has to adapt to international contracts and methods of procurement and the need to procure resources both locally and internationally as well as from China. This in turn provides opportunities for international contractors and consultants to support and collaborate with China’s construction companies in meeting the challenges of “One Belt One Road”.

The theme of this conference will be to highlight the opportunities for and capabilities of international contractors, consultants and professional institutions to support and collaborate with China’s construction companies in meeting the challenges of “One Belt One Road” through their expertise in project management, in particular management of risk through: innovative designs and construction methods; selection of appropriate procurement options; effective time and cost planning, estimation and control; fit for purpose health and safety procedures; coordinated insurance coverage; and efficient and cost effective dispute avoidance and resolution mechanisms.

In addition to the opportunity for those attending of sharing new ideas for the belt and road initiative, this conference will provide:

- unique networking and marketing opportunities for developers, contractors, subcontractors, suppliers, consultants, lawyers, trade associations, professional institutions and individuals within and associated with the construction industry;
- an insight to the challenges faced by contractors and consultants in terms of competition, innovation and risk; and
- continuing professional development opportunities for individuals who need to further develop their capabilities in relation to various aspects of construction, including managing construction risk in respect of health and safety and commercial and financial matters, procurement methods, contracts and contract administration and avoiding and resolving disputes.

The Lighthouse Club Charities

The proceeds from this Lighthouse Club Construction Conference will directly benefit **The Lighthouse Club Asia Pacific Region Benevolent Trust** which is devoted to:

- relieving poverty and financial need suffered by persons employed or formerly employed within the construction industry in the Asia Pacific region and the dependants of such persons, where such persons, widows, widowers, children and dependants are suffering hardship as a result of accident, disability or ill-health;
- providing or assisting with the provision and advancement of education for persons employed or formerly employed within the construction industry in the Asia Pacific region, and the dependants of such persons, where poverty is preventing such persons and dependants from fulfilling their education; and
- providing or assisting with the provision and advancement of education, being education and training in the construction industry, for persons who are resident in the Asia Pacific region and who desire to obtain such education and training, but where poverty is preventing such persons from fulfilling such education and training.

Organization

The Lighthouse Club Hong Kong Branch is proud to organize this two day conference on behalf of Lighthouse Club International.
